**Don't just take our word for it, see what our exhibitors had to say:****2012 Testimonials**

"This year's INTERPHEX gave us our best first day ever," said Martin Hack, Vice President and General Manager of LB Bohle LLC. "We had good traffic, good quality of leads and there was a sense the economy is recovering."

"This has been one of the best INTERPHEX shows we've had, and we've been coming for many years," said Patricia Stancati, Director of Marketing Communications, Americas. "We had qualified traffic and a lot of it, which could be a reflection of the recovering economy. The IPS tours also resulted in worthwhile traffic with real interest."

"We saw solid prospects, including companies clearly on a sourcing mission whose people asked very specific questions," said Brian Smith, Director, SKAN US Service. "And the fact that we were part of the IPS floor tours also brought us groups of people who were interested in what we do."

"INTERPHEX 2012 is the ideal venue for us to launch three new products into the bio-pharmaceutical marketplace," said Paul M. Lubas, Senior Marketing Manager, Life Sciences Process Technologies, 3M Purification Inc. "We've expanded our presence at INTERPHEX over the past three years. This has resulted in increased market awareness for our company and product portfolio and, more important, an increased number of actionable sales leads. We're looking forward to an exciting event."

"INTERPHEX is an ideal venue to showcase our biopharmaceutical manufacturing technologies to industry experts and customers alike," said Janice Paquette, Director of Global Communication, Process Solutions, EMD Millipore. "This event continues to serve as a premier launch platform for innovative products, like our Mobius® FlexReady single-use systems, designed to meet the needs of an ever-evolving industry."

"INTERPHEX attracts strong attendance by high-level professionals from the Life Science community," said Carrie Howell, Global Marketing at FedEx Healthcare Solutions. "We're looking forward to being part of this year's event, because it serves those who benefit from our portfolio of services, which includes a wide range of temperature-controlled solutions for both package and freight shipments."

INTERPHEX is where intelligence and passion intersect with a full spectrum of industry products and services to create insights and innovation.

Targeted Facility & Outsourcing Programs

Our dedicated resources are identifying and delivering the industry's most active projects to INTERPHEX 2013. Here's how we're delivering:

MEETING:

- Meeting with key decision makers face-to-face and at industry events, gathering insight on what types of products/services they are sourcing.

TRACKING:

- Continually tracking projects in North America, personally inviting the leaders of those sites to INTERPHEX.

FACILITATING:

- Facilitating matchmaking between exhibitors and key attendees; helping to develop on-site meetings.

PERSONALIZING:

- Creating personalized agendas to optimize key attendees show experience, including: suggested exhibitors to visit, educational sessions, and special events.

TRANSPORTING:

- Through the support of ISPE, Exhibitors and Pharmaceutical Companies, we have invested in bus transportation to INTERPHEX from Boston & Philadelphia and three large operating sites.

FOSTERING RELATIONSHIPS:

- One-on-One Meeting Center at INTERPHEX, sponsored by Contract Pharma Magazine, specifically designed for attending companies looking to partner on outsourcing.

In 2012 the INTERPHEX team tracked a reported \$11.2 billion in current projects that attended the show! Here's a sample of the 2012 facilities we delivered:
